

Design On Demand

[Our market-leading binding technology] + [your printed front sheet]
= one great cover!

Coverbind's innovative **DESIGN ON DEMAND** cover allows you to use any front sheet to create a perfectly-bound document. Simply affix your front sheet to the double sided tape found on the spine and you're ready to bind using any Coverbind binding machine.

Design On Demand

The easiest way to bind documents using your cover designs.

— Step-by-step instructions —

STEP
1

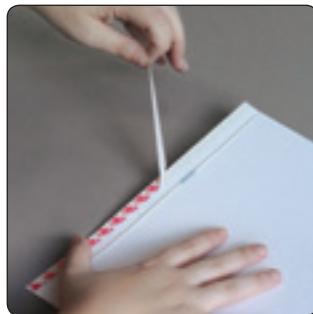

Print your front sheet

We have included printable front sheets in every 20-pack of Design On Demand covers, but front sheets can be printed on virtually any paper of your choice.

IMPORTANT! Leave a 5/8" margin on the left side of your front sheet. Anything printed outside of that margin will be hidden by the tape flap.

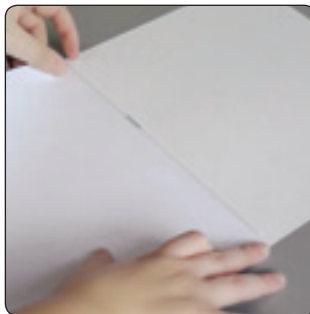

STEP
2

Attach your front sheet

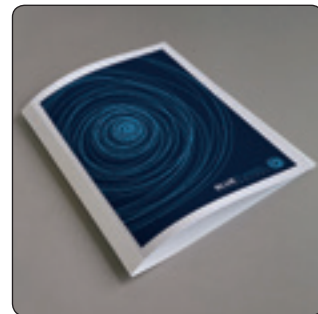

Peel

Lay the cover flat and peel the protective strip off the double sided tape.

Align & press

Using the raised binding glue as a guide, align your printed front sheet with the spine. Once aligned, press down to affix.

Ready

Your Design On Demand cover is ready to bind using any Coverbind machine.

STEP
3

Bind your document
